Subject: CFAC Phase II SAP comments
Attachments: EPA comments on the Phase II SAP.docx

Mike:

CDM Smith has completed our review of the Phase II Site Investigation work plan for the CFAC site. Attached are our comments.

David and Brian:

In past discussions with Mike, we agreed that it would be good to try to keep the EPA comments in one document. I suggest editing the attached comment set in markup mode, adding any additional comments you see fit.

Dick:

You are welcome to do the same, but if DEQ wants to keep their comments separate, I understand. If you do want to work within one set of comments format, we can change the title to read EPA and DEQ comments.

All:

We are running a bit late on these, so if we can have all additional comments back to me by noon Thursday, I can combine them all and get to Mike Friday for his transmittal to CFAC. Let me know if there are any questions.

Thanks,

Gunnar Emilsson, P.G., P.E., BCEE

P.S. I had a call from Mike Ritorto last week. They are aiming to get us the South Percolation Ponds Expedited Risk Assessment by mid April. Just a heads up.
